Cumulative Indexes of *Acta Protozoologica* Volumes 1-40, Part I

Jerzy SIKORA, Hanna FABCZAK, Anna WASIK and Małgorzata WORONOWICZ-RYMASZEWSKA

Department of Cell Biology, Nencki Institute of Experimental Biology, Warsaw, Poland

This supplement brings together the contents and authors indexes of *Acta Protozoologica* throughout the 40 volumes that have been published since 1963. The journal gradually became established through the support of a number famous scientists who used it to publish their original articles and reviews.

With the publication of our 40-th volume, we are indebted to the famous Polish scientists, Professor Zdzisław Raabe from the Warsaw University, and Professor Stanisław Dryl from the Nencki Institute of Experimental Biology, Polish Academy of Sciences, for their efforts and initiative in establishing the international journal *Acta Protozoologica* in 1963.

We believe that this Cumulative Indexes will be an important contribution to the field of protistology and a useful tool for retrieving suitable references.

Contents of Volumes 1-40

Articles title and synopsis in English, if not indicated otherwise.

Titles translated are shown in square brackets. Dr Wilhelm Foissner for translation of German titles and Dr Andrzej Grębecki for translation of French titles are acknowledged.
